WHEN DURABILITY COUNTS, RELY ON NILIT® TOUGHTEX FABRIC

For durability, versatility and reliability when it counts, NILIT® TOUGHTEX fabric delivers – in activewear, outerwear, workwear apparel, denim, shoes, bags, socks and technical fabrics. Across a broad range of apparel applications, wearers will benefit from the lightweight durability of TOUGHTEX fabric. NILIT® TOUGHTEX fabrics are designed for living and built to last, providing exceptional resistance to tears, scuffs and abrasions.

Precise engineering makes NILIT® TOUGHTEX fabrics the fabric of choice for lightweight activewear to rugged skiwear. TOUGHTEX fabric is a high-performance, super-durable material found in a wide variety of premium products. The combination of durability, high-performance aesthetics and comfort is what drives respected apparel brands and retailers to specify NILIT® TOUGHTEX fabric. With fabrics that can weigh as little as 100gr/m², the TOUGHTEX brings all of the benefits of lightweight fabrics, but with exceptional durability.

NILIT® TOUGHTEX FABRIC – DURABILITY AT ITS PEAK!

Abrasion-resistant TOUGHTEX fabric combines performance with versatility - it performs as effortlessly in motorcycle apparel as it does in casual leisure clothing. For maximum durability and for toughness that lasts and lasts, there's only one brand that can take it: the NILIT® TOUGHTEX.

NILIT® TOUGHTEX STRONGER TOGETHER

TOTAL PRODUCT SUSTAINABILITY

This product is developed under the NILIT TPS criteria:

- > New cogeneration power plant
- > 40% reduction of CO₂
- > 100% reduction of emissions of toxic gases
- > Zero waste management
- > Water conservation and purification systems

FEATURES

Garments incorporating NILIT® TOUGHTEX fabrics offer:

- High tear & abrasion resistance
